170 Coaching Niches To *INSPIRE!*

Coaching is an incredibly fulfilling career that is about supporting and helping others with what they see as problems and blocks in their lives; blocks that are stopping them from moving forward and growing.

For coaches, coaching is *also* about bringing our talents, gifts, skills and passion into what we do because - when we do that - we bring our *love* to our work: our love for sharing what comes naturally to us, or what we have done for so long it has become natural.

Maybe we've survived experiences and life events that have given us insight into ways for others to navigate the same thing more easily. Perhaps we have training in specific modalities. The important thing to remember is that we have all 'survived', and learned, and our lives have taught us so much about navigating the speed humps people can encounter.

Once you look over this list - you'll see that there are hundreds of fields you can coach in if you have the passion, experience and coaching skills. And this list isn't all you can do!

With 7.6 billion people on our planet today, and **4.1 billion on the internet** - any niche you choose will have thousands, if not hundreds and hundreds of thousands of people needing what you have to offer!

REALLY!

*Don't ask what
the world needs.*

**Ask what makes you
come alive, and go do it.
Because what the world
needs is people who
have come alive.**
